ISTRUZIONI DI SICUREZZA

Nota informativa sullo smaltimento a fine vita del prodotto.
Questo prodotto è soggetto alle norme sulla raccolta differenziata dei rifiuti RAEE: in nessun caso dovrà essere gettato nei normali cassonetti della spazzatura.
Vietato smaltire il prodotto nell'ambiente al termine del suo ciclo vitale in quanto può essere nocivo per l'ambiente stesso e la salute.
Il prodotto incorpora delle batterie Li-ion che devono essere trattate a parte. Per maggiori informazioni contattare l'autorità locale competente.

RICARICA

LED stato batteria:
verde - giallo - rosso

USB-C

Quando la batteria raggiunge il livello minimo di carica si illuminerà il led di colore rosso. Collegare quindi LUMINA ad un alimentatore USB, tramite il cavo fornito in dotazione (la presa di ricarica USB-C si trova nella parte posteriore del dispositivo, protetta da un tappino). Durante la ricarica si accenderà il led giallo che verrà poi sostituito da quello verde a ricarica completata.

FUNZIONI TASTI

- **ON*** (pressione breve)
- **OFF** (pressione lunga 3s)
- **Cambio luminosità** (pressione media 1s)
- **Torcia** (pressione lunga con dispositivo spento)

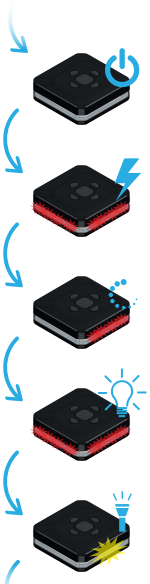

- **ON/OFF** lato corrispondente
- **In modalità torcia:** ON/OFF lato corrispondente con luce fissa

*all'accensione verrà eseguito l'ultimo effetto selezionato

SAFETY INSTRUCTIONS

Information regarding end-of-life product recycling.
This product is subject to the regulations on the separate collection of WEEE waste: under no circumstances should it be thrown into normal rubbish bins.
It is forbidden to dispose of the product into the environment at the end of its life cycle as it can be harmful to the environment and health.
The product incorporates Li-ion batteries which must be treated separately. For further information, contact the competent local authority.

CHARGING

Battery status LED:
green - yellow - red

USB-C

When the battery reaches the minimum charge level the red led will light up. Then connect LUMINA to a USB power supply, using the supplied cable (the USB-C charging socket is located on the back of the device, protected by a cap).
During charging, the yellow led will light up and will be replaced by the green once the charging is complete.

KEY FUNCTIONS

- **ON*** (short press)
- **OFF** (long press 3s)
- **Change brightness** (short press 1s)
- **Torch** (long press with device off)

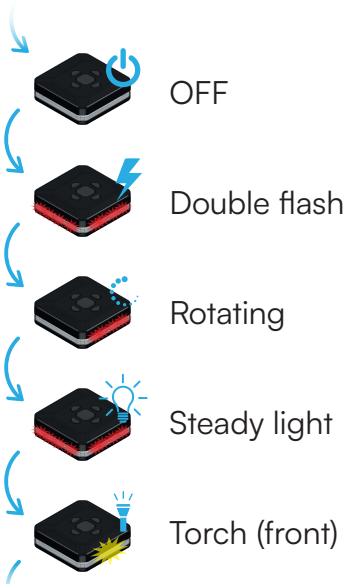

- **ON/OFF** corresponding side
- **In flashlight mode:** ON/OFF corresponding side with fixed light

*when turned on, the last selected effect will be performed

CONSIGNES DE SÉCURITÉ

Note informative relative à l'élimination d'un produit.
Ce produit est soumis à la réglementation relative à la collecte sélective des déchets DEEE : il ne doit en aucun cas être jeté dans les poubelles normales.
Il est interdit de jeter le produit dans l'environnement en fin de vie car cela peut être nocif pour l'environnement et la santé.
Le produit intègre des batteries Li-ion qui doivent être traitées séparément. Pour plus d'informations, contactez l'autorité locale compétente.

MISE EN CHARGE

LED d'état de la batterie:
vert - jaune - rouge

USB-C

Lorsque la batterie atteint le niveau de charge minimum, la led rouge s'allume. Connectez ensuite SOS LIGHT à une alimentation USB, à l'aide du câble fourni (la prise de charge USB-C est située à l'arrière de l'appareil, protégée par un capuchon).
Pendant la recharge, la led jaune s'allumera puis sera remplacée par la verte une fois la recharge terminée.

FONCTIONS CLÉS

- **ON*** (appui court)
- **OFF** (appui long 3s)
- **Modifier la luminosité** (appui court 1s)
- **Torche** (appui long avec l'appareil éteint)

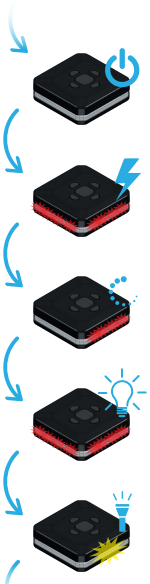

- **ON/OFF** côté correspondant
- **En mode torche:** ON/OFF côté correspondant avec feu fixe

*Lorsque cette option est activée, le dernier effet sélectionné sera appliqué.
